Notice of Intent for New or Renewal of General Permit for Discharges from Small Municipal Separate Storm Sewer Systems - MS4's

Part I. General Information

1. MS 4 Operator Name: Village of Chicago Ridge

2. MS4 Mailing Address: 10455 Ridgeland Ave.

City: Chicago Ridge State: IL

3. Operator Type: Village Other: _____

4. Operator Status: Local Other: _____

5. Name(s) of governmental entity(ies) in which MS4 is located:

Cook County

6. Area of land that drains to your MS4 in square miles: 2.2

7. Latitude and Longitude at approximate geographical center of MS4 for which you are requesting authorization to discharge:

Latitude:			Longitude:		
<u>87</u>	<u>46</u>	<u>00</u>	<u>42</u>	<u>30</u>	<u>00</u>
Degrees	Minutes:	Seconds:	Degrees:	Minutes:	Seconds:

8. Name(s) of known receiving waters

<u>Stony Creek (West)</u>	<u>Melvina Ditch</u>
_____	_____
_____	_____
_____	_____

9. Persons responsible for implementation or coordination of Stormwater Management Program:

Name: Doug Koehler Title: Director of Public Works Phone: 708-425-7700

Area of Responsibility: Overall Implementation

Name: Christopher B. Burke Eng Ltd. Title: Village Consultant Engineer Phone: 847-823-0500

Area of Responsibility: Control Measures 1-6

Part II. Best Management Practices (include shared responsibilities) which have been implemented or are proposed to be implemented in the MS4 area:

A. Public Education and Outreach

Qualifying Local Programs:

The Village performs a variety of activities that meet the requirements of the Public Education and Outreach minimum control measure. These activities include BMP's: A.1, A.3 and A.6.

Measurable Goals (include shared responsibilities)

- A.1 Distributed Paper Material

Brief Description of BMP:

The Village will continue to produce and make available brochures on topics related to stormwater quality. These topics may include steps the public can take to reduce pollutants to stormwater runoff or the impacts of stormwater runoff on local water bodies.

Measurable Goals, including frequencies:

The brochures will be developed to target developers, commercial and industrial facility operators and residents. The goal of this program is to increase the awareness of impacts of storm water discharges on water bodies and the steps that the public can take to reduce pollutants in storm water runoff.

Milestones:

Go to Additional Pages

Year 1:

The Public Works Department will continue to produce and make the informational material and brochures.

Year 2:

The Public Works Department will continue to produce and make the informational material and brochures.

Year 3:

The Public Works Department will continue to produce and make the informational material and brochures.

Year 4:

The Public Works Department will continue to produce and make the informational material and brochures.

Year 5:

The Public Works Department will continue to produce and make the informational material and brochures.

- A.2 Speaking Engagement

Brief Description of BMP:

The Village will include a storm water and/or ambient water quality related article once a year in the Village's newsletter.

Measurable Goals, including frequencies:

The Village newsletter article will be developed to target developers, commercial and industrial facility operators and interested citizens. The goal of this program is to increase the awareness of impacts of storm water discharges on water bodies and the steps that the public can take to reduce pollutants in storm water runoff.

Milestones:

Year 1:

The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.

Year 2:

The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.

Year 3:

The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.

Year 4:

The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.

Year 5:

The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.

Go to Additional Pages

- A.4 Community Event
- A.5 Classroom Education Material
- A.6 Other Public Education

(You may need to go to the next page to fill in this information)

The Village has information its website relating to recycling of waste, waste disposal, stormwater and/or water quality and provides contact information for residents to report any potential stormwater or water quality related issues.

Measurable Goals, including frequencies:

The Village will continue to target developers, commercial and industrial facility operators and residents. The goal of this program is to increase the awareness of impacts of storm water discharges on water bodies and the steps that the public can take to reduce pollutants in storm water runoff.

Milestones:

Year 1:

The Village will continue to provide the website links and update as needed.

Year 2:

The Village will continue to provide the website links and update as needed.

Year 3:

The Village will continue to provide the website links and update as needed.

Year 4:

The Village will continue to provide the website links and update as needed.

Year 5:

The Village will continue to provide the website links and update as needed.

B.Public Participation/Involvement

Measurable Goals (include shared responsibilities)

Qualifying Local Programs:

The Village performs a variety of activities that meet the requirements of the Public Participation and Involvement minimum control measure. These activities include BMP's: B.2, B.6 and B.7.

B.2 Educational Volunteer (You may need to go to the next page to fill in this information)

The Village coordinates with local groups to perform clean up activities. These activities directly reduce the amount of pollutants entering the Village's storm sewer system.

Measurable Goals, including frequencies:

The goal of this activity is to encourage active public participation in ambient water quality programs and increase the visibility of water quality issues.

Milestones:

Year 1:

The Village will continue with the clean up activities and work to increase participation.

Year 2:

The Village will continue with the clean up activities and work to increase participation.

Year 3:

The Village will continue with the clean up activities and work to increase participation.

Year 4:

The Village will continue with the clean up activities and work to increase participation.

Year 5:

The Village will continue with the clean up activities and work to increase participation.

Go to Additional Pages

- B.3 Stakeholder Meeting
- B.4 Public Hearing
- B.5 Volunteer Monitoring
- B.6. Program Involvement

(You may need to go to the next page to fill in this information)

The Village coordinates with local groups to perform clean up activities. These activities directly reduce the amount of pollutants entering the Village's storm sewer system. +

Measurable Goals, including frequencies:

This activity has the goal of encouraging active public participation in ambient water quality programs and increasing the visibility of water quality issues.

Milestones:

Year 1:

The Village will continue with the clean up activities and work to increase participation.

Year 2:

The Village will continue with the clean up activities and work to increase participation.

Year 3:

The Village will continue with the clean up activities and work to increase participation.

Year 4:

The Village will continue with the clean up activities and work to increase participation.

Year 5:

The Village will continue with the clean up activities and work to increase participation.

Go to Additional Pages

B.7 Other Public Involvement (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Public Works Department provides contact information on the Village website to allow residents to report stormwater or water quality related issues.

Measurable Goals, including frequencies:

The goal of this program is to provide active citizen participation in detection of illicit discharges to the storm sewer system and problems with drainage features. This program will also aid the Public Works Department in the detection of illicit discharges. +

Milestones:

Year 1:

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues.

Year 2:

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues.

Year 3:

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues.

Year 4:

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues.

Year 5:

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues.

Go to Additional Pages

C. Illicit Discharge Detection and Elimination

Qualifying Local Programs:

The Village and Cook County perform a variety of activities that meet the requirements of the Illicit Discharge Detection and Elimination minimum control measure. These activities include BMP's: C.1, C.2, C.3, C.4, C.5, C.6, and C.10.

Measurable Goals (include shared responsibilities)

C.1 Sewer Map Preparation

(You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village currently has a storm sewer map of the Village and outfalls to receiving streams.

Measurable Goals, including frequencies:

The goal of this program is to develop a storm sewer map for the Village to allow for quicker, more accurate tracing procedures.

Milestones:

Year 1:

The Public Works Department will continue to update the map as needed.

Year 2:

The Public Works Department will continue to update the map as needed.

Year 3:

The Public Works Department will continue to update the map as needed.

Year 4:

The Public Works Department will continue to update the map as needed.

Year 5:

The Public Works Department will continue to update the map as needed.

Go to Additional Pages

C.2 Regulatory Control Program

(You may need to go to the next page to fill in this information)

The Village and County have ordinances in place to prohibit non-stormwater discharges to the municipal separate storm sewer system.

Measurable Goals, including frequencies:

The goal of this program is to eliminate any non-storm water discharges to the storm sewer system.

Milestones:

Year 1:

The Village will continue to enforce the regulatory control measures to prohibit or eliminate non-stormwater discharges.

Year 2:

The Village will continue to enforce the regulatory control measures to prohibit or eliminate non-stormwater discharges.

Year 3:

The Village will continue to enforce the regulatory control measures to prohibit or eliminate non-stormwater discharges.

Year 4:

The Village will continue to enforce the regulatory control measures to prohibit or eliminate non-stormwater discharges.

Year 5:

The Village will continue to enforce the regulatory control measures to prohibit or eliminate non-stormwater discharges.

Go to Additional Pages

C.3 Detection/Elimination Prioritization Plan (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village has procedures for handling the report of a possible illicit discharge to storm sewer systems. The Village also has procedures for tracking reports of illicit discharges and the enforcement measures the Land Development Code to facilitate the elimination of illicit discharges once they are discovered, tracked and investigated.

Measurable Goals, including frequencies:

The goal of this program is to develop a procedure for receiving, tracking, investigating and eliminating illicit discharges to the storm sewer system.

Milestones:

Year 1:

The Village will continue the illicit discharge procedures.

Year 2:

The Village will continue the illicit discharge procedures.

Year 3:

The Village will continue the illicit discharge procedures.

Year 4:

The Village will continue the illicit discharge procedures.

Year 5:

The Village will continue the illicit discharge procedures.

C.5 Illicit Source Removal Procedures (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village has procedures for handling the report of a possible illicit discharge to storm sewer systems. The Village also has procedures for tracking reports of illicit discharges and the enforcement measures the Land Development Code to facilitate the elimination of illicit discharges once they are discovered, tracked and investigated.

Measurable Goals, including frequencies:

The goal of this program is to develop a procedure for tracking, investigating and eliminating illicit discharges to the storm sewer system.

Milestones:

Year 1:

The Village will continue the illicit discharge procedures.

Year 2:

The Village will continue the illicit discharge procedures.

Year 3:

The Village will continue the illicit discharge procedures.

Year 4:

The Village will continue the illicit discharge procedures.

Year 5:

The Village will continue the illicit discharge procedures.

Go to Additional Pages

C.6 Program Evaluation and Assessment (You may need to go to the next page to fill in this information)

The Village performs an annual audit of the NPDES program and Stormwater Management Program Plan to verify compliance with the permit requirements and overall effectiveness of the program.

Measurable Goals, including frequencies:

The goal of this activity to assess the Village's NPDES program for compliance and effectiveness.

Milestones:

Year 1:

The Village will continue to perform the annual evaluation and assessment.

Year 2:

The Village will continue to perform the annual evaluation and assessment.

Year 3:

The Village will continue to perform the annual evaluation and assessment.

Year 4:

The Village will continue to perform the annual evaluation and assessment.

Year 5:

The Village will continue to perform the annual evaluation and assessment.

- C.7 Visual Dry Weather Screening
- C.8 Pollutant Field Testing
- C.9 Public Notification
- C.10 Other Illicit Discharge Controls

(You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village performs annual monitoring of the receiving waters upstream and downstream of all MS4 discharge points.

Measurable Goals, including frequencies:

The goal of this activity is to monitor receiving streams for potential changes due to the discharge of stormwater.

Milestones:

Year 1:

The Village will continue the monitoring program.

Year 2:

The Village will continue the monitoring program.

Year 3:

The Village will continue the monitoring program.

Year 4:

The Village will continue the monitoring program.

Year 5:

The Village will continue the monitoring program.

D. Construction Site Runoff Control

Measurable Goals (include shared responsibilities)

Qualifying Local Programs:

The Village performs a variety of activities that meet the requirements of the Construction Site Runoff Control minimum control measure. This program relates to BMP numbers D.1, D.2, D.4, D.5, and D.6.

D.1 Regulatory Control Program (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village has ordinances and procedures in place that require construction site runoff controls. These procedures include review of the site development plans by qualified staff and inspection/enforcement procedures.

Measurable Goals, including frequencies:

The goal of these activities are to reduce or prevent the discharge of pollutants from construction sites to the municipal separate storm sewer system.

Milestones:

Year 1:

The Village will continue the construction site runoff control program.

Year 2:

The Village will continue the construction site runoff control program.

Year 3:

The Village will continue the construction site runoff control program.

Year 4:

The Village will continue the construction site runoff control program.

Year 5:

The Village will continue the construction site runoff control program.

Go to Additional Pages

D.2 Erosion and Sediment Control BMPs (You may need to go to the next page to fill in this information)

The Village has ordinances and procedures in place that require construction site runoff controls. These procedures include review of the site development plans by qualified staff and inspection/enforcement procedures.

Measurable Goals, including frequencies:

The goal of these activities are to reduce or prevent the discharge of pollutants from construction sites to the municipal separate storm sewer system.

Milestones:

Year 1:

The Village will continue the construction site runoff control program.

Year 2:

The Village will continue the construction site runoff control program.

D.4 Site Plan Review Procedures

(You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village has ordinances and procedures in place that require construction site runoff controls. These procedures include review of the site development plans by qualified staff and inspection/enforcement procedures.

Measurable Goals, including frequencies:

The Village will continue these activities to reduce or prevent the discharge of pollutants from construction sites to the municipal separate storm sewer system.

Milestones:

Year 1:

The Village will continue the construction site runoff control program.

Year 2:

The Village will continue the construction site runoff control program.

Year 3:

The Village will continue the construction site runoff control program.

Year 4:

The Village will continue the construction site runoff control program.

Year 5:

The Village will continue the construction site runoff control program.

Go to Additional Pages

D.5 Public Information Handling Procedures

(You may need to go to the next page to fill in this information)

The Village has procedures in place for addressing reports from residents related to construction site runoff.

Measurable Goals, including frequencies:

The Village will continue to address the reporting of problems related to construction site runoff.

Milestones:

Year 1:

The Village will continue the program to address reports related to construction site runoff control issues.

Year 2:

The Village will continue the program to address reports related to construction site runoff control issues.

Year 3:

The Village will continue the program to address reports related to construction site runoff control issues.

Year 4:

The Village will continue the program to address reports related to construction site runoff control issues.

Year 5:

The Village will continue the program to address reports related to construction site runoff control issues.

E. Post-Construction Runoff Control

Qualifying Local Programs:

The Village performs a variety of activities that meet the requirements of the Post-Construction Runoff Control minimum control measure. This relates to BMP numbers E.2, E.3, E.4, E.5 and E.6.

Measurable Goals (include shared responsibilities)

- E.1 Community Control Strategy
- E.2 Regulatory Control Program

Brief Description of BMP:

The Village has ordinances and procedures in place that protect water quality and reduce the discharge of pollutants by controlling post-construction site runoff. These procedures include review of the BMP designs by qualified staff and inspection/enforcement during and after construction.

Measurable Goals, including frequencies:

The Village will continue these activities to reduce or prevent the discharge of pollutants from construction sites to the municipal separate storm sewer system.

Milestones:

Year 1:

The Village will continue the post construction runoff control program.

Year 2:

The Village will continue the post construction runoff control program.

Year 3:

The Village will continue the post construction runoff control program.

Year 4:

The Village will continue the post construction runoff control program.

F. Pollution Prevention/Good Housekeeping

Measurable Goals (include shared responsibilities)

Qualifying Local Programs:

The Village performs a variety of activities that meet the requirements of the Post-Construction Runoff Control minimum control measure. This relates to BMP numbers F.1, F.2, F.3, F.4, F.5, and F.6.

- F.1 Employee Training Program (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village will continue provide the training and other presentations that provide guidance and procedures for employees to reduce or eliminate the discharge of pollutants from Village owned facilities and activities to the storm sewer system.

Measurable Goals, including frequencies:

The Village will continue to educate Public Works employees of current practices that contribute to storm water pollution and/or to develop new procedures and make revisions to existing procedures that will curtail the discharge of pollutants to storm sewer systems by Public Works employees.

Milestones:

Year 1:

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

Year 2:

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

Year 3:

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

Year 4:

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

Year 5:

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

Go to Additional Pages

- F.2 Inspection and Maintenance Program (You may need to go to the next page to fill in this information)

Brief Description of BMP:

The Village has procedures and inspection forms for the routine inspections of ponds, stream channels and storm sewer outfalls. The Village typically completes the inspection cycle once every three years or as funding allows.

Measurable Goals, including frequencies:

The Village will continue the inspection and maintenance program to identify and repair any stormwater issues with the municipal separate storm sewer system.

Milestones:

Year 1:

The Village will continue with the inspection and maintenance program.

Year 2:

The Village will continue with the inspection and maintenance program.

Year 3:

The Village will continue with the inspection and maintenance program.

Year 4:

The Village will continue with the inspection and maintenance program.

Year 5:

The Village will continue with the inspection and maintenance program.
